## DUBLIN REVOLT UNDER CONTROL

Eleven Persons Killed and Score Wounded in Uprising.

## FURTHER TROUBLE IS FEARED

Chief Secretary for Ireland Gives the House of Commons Few Details of Fighting in Irish Capital—More Soldiers Being Hurried to Scene.

London, April 26.—With eleven persons killed and a score wounded as the result of an uprising in Dublin all Ireland is a smoldering volcano.

Although the capital was almost completely isolated by the cutting of the telegraph wires when the rebels seized the postoffice the government professes to be in control of the situation.

The most sanguine, however, will not predict what the next hour will bring forth.

Augustine Birrell, chief secretary for Ireland, who made the first announcement in the house of commons, could give few details of the rioting. The government knew, he said, that about a dozen soldiers had been killed that arrests had been made and that troops were on the way from The Curragh to Dublin. It did not know the number of rioters killed or the parts of the city that were still in their possession.

So far as is known the trouble started at noon Monday in the heart of Dublin. A mob, composed mainly of members of the Sinn Fein society seized the Stephens green, a large park near the Royal university, the postoffice on Sackville street and several houses immediately adjoining.

Troops, hastily summoned, and loyal volunteers sought to expel the rebels, who meanwhile had cut all the communication lines. In the fighting that ensued two policemen and two citizens were killed, together with several soldiers.

It is the connection between the revolt and the attempted landing of Sir Roger Casement with German arms on the Irish coast that makes the situation ominous. It is believed now that there is a vast conspiracy afoot through all Ireland and that the arrival of Sir Roger had been set as the signal for a general uprising.

The official statement, however, asserts that the disturbances were localized in Dublin. Reports received from Cork, Limerick, Ennis, Tralee and both Ridings of Tipperary, where the Sinn Feiners have been specially strong, show that if any revolts were planned they failed to materialize.

## AUSTRIA OPPOSES RUPTURE

Wants Germany and America to Remain Friends.

Washington, April 26.—Secretary Lansing announced that dispatches to the state department from Vienna, quoting Austria-Hungary newspapers on the submarine situation, indicated that opinion here seems to be against Germany taking action that would lead to the severance of diplomatic relations with the United States. He added that German newspaper comment forwarded by Ambassador Gerard at Berlin was moderate in tone.

## WAR COSTS EUROPE \$90,000,000 A DAY

New York, April 26.—War is costing the nations of Europe more than \$90,000,000 a day, according to estimates prepared in a booklet to be issued by the Mechanics and Metals National bank of this city.

Of this enormous total the principal burden falls on the entente allies. The bank estimates that the cost per hour to England, France and Russia is approximately \$2,500,000, while to the Teutonic empires the cost is in excess of \$1,000,000.

The total cost of the war, if it is in progress Aug. 1, next, will have been \$45,000,000,000. Of this sum Great Britain's share will have been \$11,600,000,000. Germany's a trifle less and France \$9,250,000,000.

Two years of the war, the booklet states, will cost six times more than the full amount expended in the Civil war, will reach a sum forty times more than the amount of our national debt and will be 120 times more than the cost of the Panama canal.

## Troops on Patrol Duty.

Valdez, Alaska, April 26.—Company A, of the Fourteenth United States infantry, stationed at Port Liscum, near here, has been ordered to Anchorage for patrol duty in connection with the strike of laborers employed in construction of the government railroad.

## AUGUSTINE BIRRELL.

Tells House of Commons About Trouble in Ireland.

## BRITAIN'S HISTORIC ESTATES FOR SALE

London, April 26.—The aristocratic owners of England's famous country estates, comprising thousands of idle acres, are selling their holdings because the war has pinched them financially. This is believed to mean that the idle land will be broken into small holdings and that England will become an important agricultural nation.

The current issue of a well known British real estate magazine carries nineteen solid pages of closely printed advertisements asking purchasers or tenants for more than 50,000 acres of sporting estates and innumerable country seats throughout England, Scotland and Wales.

With hundreds of thousands of men released from the army after demobilization, Britain must find a place for them.

Those who have lived in the open air will insist on continued open air, according to those who are now making a study of the situation.

## MORE TRANSPORTS ARRIVE

Second Contingent of Russian Soldiers Lands in France.

Marseilles, April 26.—Marseilles was again the center of tremendous enthusiasm as another contingent of Russian troops arrived unexpectedly.

It was a stirring scene as the Russians lined the decks of the transports, returning the cheers from the crowds.

After an exchange between the French and Russian officers the disembarkation of the troops began amid continuous hurrahs.

The new troops are composed of young men of excellent appearance and sturdy bearing, similar to those in the previous detachments.

## TEUTON AIRSHIPS AGAIN RAID ENGLAND.

London, April 26.—Hostile airships raided the counties of Essex and Kent Tuesday night, according to an official statement.

"The number of raiders is uncertain," the communication adds, "but they did not exceed four."

The raiders were met by a brisk anti-aircraft gun fire and retreated after achieving little or nothing.

## BURTON IS OHIO'S CHOICE

Republicans Favor Senator for Presidential Nominee.

Columbus, O., April 26.—Both Republican and Democratic organization candidates for delegates at large to the national conventions were elected in Ohio at the state's first presidential preference primaries.

For the presidential nominations, Republicans voted predominantly for Theodore E. Burton and Democrats for President Wilson. Theodore Roosevelt received only slight endorsement of voters, who wrote his name on the ballot. Henry Ford also got a few votes.

## New Democratic Secretary.

Butte, Mont., April 26.—J. Bruce Kremer, Democratic national committeeman from Montana, has been appointed secretary of the national Democratic committee, according to private advices received here. Mr. Kremer would neither affirm nor deny the report, saying that any information must come from William F. McCombs, national chairman.

## PRESIDENT WILL NOT WITHDRAW DEMAND FREIGHTERS BE WARNED

According to Advices From Berlin This Is Only Demand Germany Is Not Willing to Concede

American Cavalry Detachment Has Running Fight With 200 Villaists Near Chihuahua Last Saturday

Most Serious Obstacle is to Warn Freighters

(By United Press) Berlin, April 26.—The demand of President Wilson that submarines warn freighters is constituted as the most serious obstacle in the way of a satisfactory settlement of the German-American relations. The United Press is reliably informed that the other points are possibly settled, but the stick comes when officials are convinced freighters are carrying munitions to the allies.

Freighters Must be Warned Also

(By United Press) Washington, April 22.—President Wilson will not, under any circumstances, withdraw his demand that German submarines must warn freighters, it is reported on good authority following the dispatch from Berlin.

Americans Think a Break is Imminent

(By United Press) London, April 26.—Several Americans who left Germany and who have arrived at Copenhagen are convinced that the diplomatic break is imminent.

Energetic Steps Taken to Stop Insurrection

(By United Press) London, April 26.—The government is taking energetic steps to put down the insurrection of the Sinn Fein volunteers. Telegraphic communication is still severed and there is nothing new in the situation.

Embargo Conference Cause Telegram Flood

(By United Press) Chicago, April 26.—It has been revealed that the American embargo conference is the source of some hundreds of thousands of telegrams flooding Washington protesting against a break with Germany. The officers of the conference have sent to German-Americans a prepared sheet of seven model telegrams for signing.

Germans Directing the Guatemalan Revolution

(By United Press) Mexico City, April 26.—An official telegram says that many German officers are directing the Guatemalan revolution seeking to overthrow President Estrada Cabrera. The Japanese are supplying the rebels with arms and ammunition. Three columns of rebels are in the field.

Found Guilty of Arson First Degree

(By United Press) St. Paul, April 26.—Thomas Jordan was found guilty at Redwood Falls of arson in the first degree, and sentenced from ten years to life imprisonment at Stillwater. He bought up run-down hotels and burned them.

American Officer Kills Mexican

(By United Press) Columbus, April 26.—In a personal encounter near Satevo, Lieut. Campbell of the advanced American detachment, killed a Mexican firing at him.

American Troops Fight Villa Bandits

(By United Press) Pershing's Headquarters, April 26.—Six Villaistas were killed and nineteen wounded in a fierce three hours running fight with a small detachment of U. S. cavalrymen under Col. Dodd and two hundred and sixty Villaistas under four chiefs near Lomach, Chihuahua, last Saturday. Two American troopers were killed and three wounded.

State Department Issues Memorandum

(By United Press) Washington, April 26.—Belligerents should presume armed merchantmen are peaceful unless there is conclusive evidence to the contrary, is the position of the United States officially declared in a memorandum of the state department made public today. The memorandum is intended to make clear the American position and forestall any statement from Germany.

Bragdon Adopts Niece After Cuban Trip

(By United Press) Minneapolis, April 26.—J. W. Bragdon has filed papers to adopt Marguerite Roberts of St. James, aged nineteen, claiming her as his niece. She says he traveled with her through Cuba.

Hetty Green Not Ill

(By United Press) New York, April 26.—The report that Mrs. Hetty Green is ill is denied by her secretary.

## Scouts Leading Pershing's Hunt for Villa

R. J. Boyd and Ted Houghton are the two chief scouts of General Pershing on whom he largely depends in his hunt for Villa. Boyd, a rough old character of the desert, knows northern Mexico and the Mexicans better than they know themselves. He has hunted them all his life. He is a natural scout, the kind that knows more of the desert than the Indians. Houghton, too, has had much experience in Mexico.

## HENRY MORGENTHAU.

Ambassador to Turkey Tenders His Resignation.

## HENRY MORGENTHAU QUILTS

American Ambassador to Turkey Tenders Resignation.

Washington, April 26.—Henry Morgenthau, American ambassador to Turkey, has tendered his resignation to President Wilson and it probably will be accepted.

Abram I. Elkus, a New York lawyer, is expected to succeed him.

Reports of Mr. Morgenthau's intention to resign to take part in the campaign for Mr. Wilson's re-election have been current for several weeks since he returned from Constantinople on a vacation.

Mr. Morgenthau is expected to take up important organization work for the Democratic party in the coming campaign.

McAdoo Commission Insulted Peruvians

(By United Press) Lima, Peru, April 26.—The Peruvian government has sent to all South American governments a detailed statement of the alleged insult to Peru by the McAdoo international high commission. It says arrangements for the U. S. party and McAdoo left within a few hours without a satisfactory reason. Peru expects an apology.

State Twine Plant Works Day and Night

(By United Press) St. Paul, Minn., April 26.—Chairman Swenson of the state board of control, announced that the prisoners in the twine plant at Stillwater, were working day and night on account of the increased demand.

FOUR KILLED IN GERMAN CRUISER RAID

(By United Press) London, April 26.—It is officially stated that four were killed and two were wounded in the German cruiser raid when the English coast city of Yarmouth and Lowestoft were shelled yesterday. At Lowestoft 240 dwellings were shelled and forty suffered severely. Two buildings were damaged at Yarmouth.

FRENCH AEROPLANE ATTACKS ZEPPELIN OF ZEE BRUGGE

(By United Press) Paris, April 26.—A French aeroplane this morning attacked a Zeppelin off Zeebrugge at a height of 13,200 feet. The Zeppelin was apparently returning from last night's raid on England. The Zeppelin tilted its nose and moved off apparently injured.

TROOPS FROM ENGLAND OCCUPY DUBLIN

(By United Press) London, April 26.—It is officially stated that government troops rushed from England have occupied the heart of Dublin. Martial law has been declared in Dublin county.

## BRITISH REPLY IS MADE PUBLIC

London Answers Protest on Trade Interference.

## HOLDS BLOCKADE JUSTIFIED

Note to Washington, in Which France Concur, Reiterates Military Necessity of Regulating Commerce to Neutrals Contiguous to Germany.

Washington, April 26.—The latest British note in answer to the American protests against allied interferences with neutral trade, made public at the state department, contends that the practices complained of are "juridically sound and valid."

Relief which neutrals seek, the document declares, is rather to be obtained by the mitigation of necessary hardships than by "abrupt changes either in the theory or application of a policy based upon admitted principles of international law carefully adjusted to the altered conditions of modern warfare."

It discloses that "an impartial and influential commission" has been appointed to find ways to minimize delays and pledges the allies to make their restraints on trade as little burdensome to neutrals as possible.

The note, in which the French government concurs, reiterates the military necessity of regulating commerce to neutrals contiguous to Germany and justifies the effectiveness of the blockade which was challenged by the last American note.

More diplomatic correspondence over the issue is expected to follow.

The unanimity of sentiment among the world's neutrals for the protection of neutral rights is recognized in the British note, which refers to the subject in terms embracing not the rights of trade alone. It says in conclusion:

"His majesty's government have noted with sincere satisfaction the intimation contained in the concluding passages of the United States note, of the intention of the United States to undertake the task of championing the integrity of neutral rights."

The note then recites the invasion of Belgium and the German-submarine warfare against merchantmen and continues:

"His majesty's government would welcome any combination of neutral nations under the lead of the United States which would exert an effective influence to prevent violation of neutral rights."

## TALKS TO NEWSPAPER MEN

Lansing Deprecates Stories of German Concessions.

Washington, April 26.—Secretary Lansing in a conference with newspaper correspondents deprecated the publication of reports that official dispatches to the state department from Ambassador Gerard indicate Germany may make concessions to the United States in reply to the note demanding the immediate abandonment of present methods of conducting submarine warfare.

He said official dispatches to the department from Berlin contained only quotations of newspaper opinions, similar in many cases to the editorial excerpts cabled to this country in press dispatches.

## Sunk by Two Submarines.

London, April 26.—The Dutch steamer Berkelstrom, bound from Amsterdam, was sunk by two German submarines, which gave the crew fifteen minutes to take to boats. The captain and crew have been landed.

## ROOSEVELT TO GIVE KEYNOTE SATURDAY

Chicago, April 26.—Theodore Roosevelt is to be given a birdseye view of political sentiment in the middle west during his trip to Chicago this week. Particular attention will be devoted to the attitude of the German-American vote to the preparedness issue and to the "peace at any price" propaganda.

Colonel Roosevelt is to deliver an address Saturday night at the banquet of the Illinois State Bar association. Prominent Republicans in public and private life, have been invited to drop around to his hotel to meet him informally late Friday. There will be conferences in which the political tendencies in Chicago and Illinois—Roosevelt strongholds in 1912—will be analyzed.

Colonel Roosevelt's Saturday night address will be his first utterance in the west since his "boom" got under way. The politicians look for something that will have a great bearing on the presidential situation.

lin harmony and theory. Special  
inducements for spring and summer  
instructions. Music furnished, for  
all occasions. Studio 309 8th street  
south, phones 595-L N. W. Auto-  
matic 6742. 2711f

The annual parish meeting of St.  
Paul's church will be held Thursday  
evening at 8 o'clock in the church.  
All members of the church and con-  
gregation, are urged to be present.  
Important business will be discussed.

\$25 cash and \$10 monthly will buy  
a home of Nettleton. 27714-w1f

Tom Lee is recovering from a seige  
of illness at St. Joseph's hospital and  
where he underwent an operation  
that has kept him confined for some  
weeks. He will soon leave for Back-  
us where he has charge of the La-  
Mour farm and summer home.

Men's suits, men's pants, men's  
underwear, men's shirts, men's neck-  
wear, men's socks, men's gloves—you  
will find them all at H. W. Linne-  
mann's in great variety. 27612

Benn A. Wagner, editor of the Pe-  
quot Review, was a Brainerd visitor  
today and was taken on a sight see-  
ing tour by Senator George H. Gard-  
ner, viewing the operations at the  
Northwest Paper Co. mill site, the  
Brainerd Gas & Electric Co. location,  
etc.

Green trading stamps at Undralts'  
store, corner 6th and Oak. For con-  
venience of our patrons we also car-  
ry postage stamps. 27615

The movement for consolidated  
schools is growing in Crow Wing  
county. The first consolidation oc-  
curred at Pequot. The second was  
favorably voted on at Woodrow.  
And now Riverton has joined the  
movement, districts 45 and 76 con-  
solidating. A large four-room school  
is to be built.

Sewing machines cleaned and re-  
paired. Work quickly done by ex-  
pert. Guaranteed. Call me both  
phones, Chas. Peterson, Hotel Ant-  
lers. 27315p

On Thursday afternoon an exhibit  
of bread made by the girls of the  
cooking department in the high  
school will be on display in the win-  
dow of D. M. Clark's store. The  
bread on exhibit may be purchased  
if desired. Each girl of the cooking  
department has been required to  
make a loaf of bread. The exhibit  
is a fair sample of the average re-  
sult.

Choose your spring suit at H. W.  
Linnemann's. It's a cinch that af-  
ter all this rain we'll have some glo-  
rious weather, and you'll surely want  
that spring suit. 27612

Nowadays people don't waste time  
walking the streets searching for a  
home. Most of the desirable ten-  
ants read the Brainerd Dispatch want  
ads and select their homes from these  
reliable helps. If you have a house  
to rent, now it's the time to do it.  
Don't waste any time. Simply pick  
up your phone and call Northwest  
74, or if you prefer, bring the ad to  
the Dispatch office.

Style, quality, value, you'll find  
them in clothes sold by H. W. Linne-  
mann. The smart style that dis-  
tinguishes them from the ordinary.  
The guaranteed quality—the honest  
value that assures you satisfactory  
service—and you'll be convinced that  
they are your best buy. 27612

**Clean Up!  
PAINT  
UP!**

**All Get Together For Clean Up  
and Paint Up Time!**

No Wedding Rings Here.  
In many parts of the world women  
do not wear wedding rings, but they  
have other signs which unmistakably  
show that they are married.

Hindu women paint a vertical red  
mark in the middle of their foreheads  
and wear peculiarly shaped bangles.

In Japan married women black their  
teeth with a dye made from poppies.

In most of the native tribes of South  
Africa a horn ring encircles the top-  
knot of the married woman. Among  
these tribes unmarried women wear no  
rings, wives wear one, and mothers  
wear two.

Moorish women arrange their veils in  
a particular way after marriage.

**Cleanliness Would  
Prevent Many Fires**

If the clean up and paint up spirit  
were observed by all the year  
around a large majority of fires  
could be prevented, according to a  
Philadelphia fire marshal. And he fol-  
lowed up this statement with the fur-  
ther somewhat startling assertion that  
"annually a certain portion of the popu-  
lation in Philadelphia is burned to  
death by fires in homes where in most  
cases the fire would never have oc-  
curred if a little care had been exer-  
cised in keeping the house free of rub-  
bish."

Every citizen or group of citizens  
representing a family, an association  
or business establishment should take  
part in the clean up campaign this  
year in an endeavor to decrease the  
number of fires and save the money  
loss and lives that fires cause, apart  
from the obvious creation of better  
and more healthful living conditions.

To get in line with the cleanup  
movement and to be one of the clean-  
up citizens should be the aim of every  
one during the clean up time to pro-  
tect your life and property by removing  
the causes or cause of needless fires.

Make a study of your household con-  
ditions and remember that a dirty  
house is worse than a dirty face and  
may cause lots more trouble and cost  
more money at any time. Clean up  
and paint up and aid in reducing the  
number of fires and other evils.

WHAT TO DO TO MAKE  
YOUR TOWN CLEAN

Get busy.

Don't knock.

Beat the rat.

Use th. hoe.

Swat the fly.

Take the yard.

Plant flowers.

Kill the germs.

Plan for a garden.

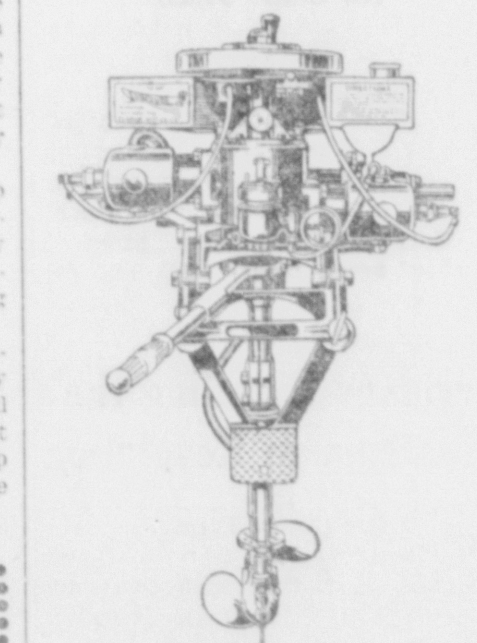

Burn the rubbish.

Clean up everything.

Go after the garbage.

Paint up, inside and out.

Help make your town healthy,  
wealthy and happy.

**BECAUSE BUYING A STUDEBAKER SAVES  
FROM \$250 TO \$400**

Our Detroit plants are running about 150 cars a day BEHIND  
ORDERS!

Of course, what's going on in our Detroit plants—our difficulties  
in keeping up with orders—our being 150 or so cars a day BE-  
HIND orders even with one of the largest factories in the whole  
industry—all that makes little difference to you, as we know.  
But we do know that the REASON we can't keep up with orders  
DOES make lots of difference to YOU. For that reason is simply  
this:

The SERIES 17 Studebakers cost from \$250 to \$400 LESS  
than any other cars that give as much. Said in another way, YOU  
SAVE FROM \$250 to \$400 by buying a Studebaker.

Now, we don't expect you to say: "That's so" and rush down  
to buy a car. We only want you to turn that thought over in  
your mind a couple of times: "\$250 to \$400 saved by buying a  
Studebaker"—and then come down and make us PROVE it.

We CAN prove it—either here in our Showrooms or off on the  
road. We can prove it side by side with any other car you can  
name—or on the toughest hill in the neighborhood—anywhere  
and any time you say.

And when you've seen these SERIES 17 Studebakers and know  
what they offer, THEN go see these other cars and make the  
salesman tell you WHY they want \$250 to \$400 more? and  
WHAT you get for the extra price? and whether it's worth  
paying that much higher price for nothing more.

See a Studebaker—and save  
yourself \$250 or more.

### WORLD'S FASHION NEWS

Fascinating Wedding Gowns Originated in Paris—Latest Bridesmaids Gowns and Negligees

Out of Paris has recently come some of the most fascinating wedding gowns, new-fashioned to the last degree and so deliciously old-fashioned in many details.

Now-a-days the wedding gown is no longer a stiff, formal affair, it is just a shade less charming than the bride. Worth makes a bewitching one of tulle over white lace banded with silver tissue and trimmed with silver fringe. Three little showers of orange blossoms fall from points at the front of the gown and a slim wreath of the same blossoms encircles the neck.

Jenny makes a whole gown of perishable tulle, with silver lacings arranged military fashion all about the little upstanding frill at the waist and around the two deep ruffles on the skirt. Not even the bride can escape the high Premet collar. This house finishes a gown of white tulle with a high draped collar and full loose sleeves of sheerest tulle.

From Lanvin comes the loveliest of bridesmaid's gowns. It is made of white tulle distended at the hips and trimmed with long slim sprays of small pink buds which fall in straight lines from shoulder to waist, from waist to knees, and from the puffed hip drapery to a short distance above the hem of the skirt.

Worth gowns two of the smartest bridesmaids of the season in silver embroidered rose-colored faille interspersed with bands of rose-colored tulle and ornamented with plump little faille roses all over it. Silver lace edges the frocks at the hem and blue ribbon forms the girdles and a note of contrast. The floppy black hats which accompany these costumes are trimmed with a big pink rose and slim streamers of blue ribbon.

From wedding gowns and bridesmaids costumes it is but a short cut mentally to negligees, the loveliest part of the trousseau. Premet is sponsor to a bewitching little tea gown which has a softly falling bodice and a deep pointed cape of blue chiffon embroidered in gold. The white tulle skirt which is fashioned in two tiers, is trimmed with three great white daisies with yellow centers. A tea gown made by Doucet and worn by Mme. Andree Megard in "La Femme Nue," is made of rose-colored crepe in the simplest of lines and worn with a dull-blue coat trim-

med at every edge with chinchilla.—From H. W. Gossard Co., courtesy H. F. Michael Co.

### A CIVIC AWAKENING

The "Clean Up and Paint Up" Campaign is a Potent Combatant of Slothful Citizenry

The bane of public officials is the citizen who lacks even a semblance of interest in the community or civic welfare. And strange as it may seem in a democracy, absence of this interest seems to be pretty generally prevalent in the average American community, a fact that is acknowledged by many leaders in public life and civic advance. A citizen would have "the city," whatever that name may signify when the great body of citizens is eliminated, keep the streets and alleys clean, preserve the public and individual health, eliminate all nuisances, make everything in town spick and span and satisfactory—while the citizen sits back and looks on or carelessly does his worst to counteract the efforts of public servants to achieve the end he demands.

The "Clean Up and Paint Up" campaign, according to thousands of city and town officials, is a most potent combatant of slothful citizenry. First, the campaign arouses the desire in men, women and children for homes and towns beautiful and sanitary. Second, it impresses upon all the fact that cleanliness, thrift and civic pride are essentials by which they will be able to satisfy that desire. Third, the campaign gives all something to do with their hands and feet and heads for the civic good. And fourth, its educational influence remains steadily the year 'round and year after year, automatically eliminating many nuisances caused formerly by carelessness or thoughtlessness.

### BRAINERD MUSICAL CLUB.

#### Ryan-Ryan

Andy Ryan and Miss Thea Ryan of Bayfield, Wis., were married this morning at the court house, Judge J. T. Sanborn being the officiating parson. Witnesses to the pleasing ceremony were Miss Esther Theorin and Mrs. Ella H. Polk.

The Dispatch joins their friends in wishing them much happiness and prosperity.

#### Anderson-Martinsfield

Miss Marie E. Anderson, of Fort Ripley, and Henry J. Martinsfield were married Saturday afternoon at the residence of Rev. R. E. Cody. The bridegroom is employed at The Northwest Paper Co. They will make their home in Northeast Brainerd.

The Dispatch joins their many friends in wishing them unbounded happiness and prosperity.

#### Dorcas Society Thursday

The Dorcas society of the Swedish Christian Bethany church will be entertained at the church, corner 9th and Maple streets South, Thursday evening, at 8 o'clock, by John Bye and Emer Dahl. The gentlemen have promised a good program and the lunch will be just as good or better. They are preparing for a large attendance and extend a hearty welcome to everybody.

### "Everybody—Altogether!"

That is the keynote of the Clean Up and Paint Up campaign.

#### Mid-Week Service

Thursday evening at 7:45 P. M., the regular Bible study and prayer service of the Methodist church, will take place. "Spiritual Recognition" will be the topic under discussion taken from the 28th chapter of Matthew.

#### Drama League

The last meeting of the Drama League will be held tomorrow afternoon at the home of Mrs. A. D. Polk for the election of officers. Mrs. Henry I. Cohen will give a synopsis of a comedy and Russian ballet.

#### Methodist Ladies' Aid

The Ladies' Aid society of the Methodist church, will be entertained Thursday afternoon in the parlors of the church by Mrs. J. H. Warner and Mrs. Thomas Deakes.

#### J. C. Congdon Circle

J. C. Congdon Circle No. 89, will hold their social meeting with Mrs. L. J. Chrisman, 21 Bluff avenue, N., on Thursday afternoon at 2 o'clock. All members are invited.

## 5TH ANNIVERSARY OF HIS MINISTRY

Rev. G. P. Sheridan to be Honored at Public Meeting and Informal Social at Church

### GEORGE D. LaBAR TO PRESIDE

Meeting Not only for Church Members but All Friends of the Popular Minister

On Thursday evening a public meeting and informal social will be held in the First Congregational church in honor of Rev. G. P. Sheridan's fifth anniversary. Under the leadership of Mr. Sheridan the church has come into its own again and is in better condition today than ever it has been. Organization, co-operation and efficiency have been watch words of his ministry and have proven worthy foundation stones in the real building of church life.

REV. G. P. SHERIDAN

In asking the nature of the meeting Mr. Sheridan said, "It will be perfectly informal; not merely for my church members but for all my friends many of whom are not members of my church or congregation."

During the five years Mr. Sheridan has endeared himself to the community by his self-sacrificing spirit; and his personal investment of time, energy and talent for the welfare of the community. Such relations have made for him numerous friends besides giving an example of true democracy.

The program for the public meeting is as follows, commencing at 8 o'clock, George D. LaBar, presiding: Piano solo, "Marche Mignonne" Poldini  
Miss Gladys Nitterauer  
Remarks by chairman  
Solo, "O Divine Redeemer" Gounod  
Al Marx

Remarks by P. W. Donovan, representing the church at large.

Trio, "Prelude by Rachmaninoff" "Serenade by Chaminade"  
E. H. Bergh, W. P. Bartsch, W. Rodenkirchen

Remarks by Orville W. Merwin, representing the Young People.

Solo, "O Lovely Night" (Violin obligato) Ronald  
Mrs. G. D. LaBar

Remarks by Henry I. Cohen, Pres. Brainerd Chamber of Commerce.

Solo, "Humoresque" Dvorak  
Edwin H. Bergh

Remarks by Rev. G. P. Sheridan. Benediction.

Followed by an informal social and refreshments

#### Citrolax

#### Citrolax

Best thing for constipation, sour stomach, lazy liver and sluggish bowels. Stops a sick headache almost at once. Gives a most thorough and satisfactory flushing—no pain, no nausea. Keeps your system cleansed, sweet and wholesome. Ask for Citrolax. H. P. Dunn, druggist. wwf-w

## Variety The Spice Of Life

No one problem is daily more vexatious than "What shall we have to eat?" Not only once but three times a day does the same plaint arise. Most families are in a peculiar rut as to their eating and manner of cooking. For instance, in one family there is a too frequent appearance of pot roast, mashed potatoes and brown gravy. Another family will not tolerate anything but broiled meat and runs up expensive bills for chops and steaks. A third family never has soup, and still another has every dessert a pudding.

Is it not possible and easy also to vary more greatly our American menus? Is not this just the time of year to install some new methods of cooking the old familiar dishes? Why must rice always be used as a cereal

### MILITIA FAVORITE ROUTE.

This Is Why Larger Appropriations Are Made For Citizen Soldierry Than For the Regular Army—Local Organizations Are Always Strong, Influential Political Factors.

By ARTHUR W. DUNN.

Washington, April 26.—[Special.]—"If the legislation which congress enacts for national defense tries to make an army out of the national guard and makes only small provision for the regular army the cause of the military organization of the United States will be set back twenty years."

That was a statement made by a brigadier general several months ago, when the discussion of army increases was confined largely to military men. What he then anticipated has happened.

The legislation for preparedness has been largely for the militia. While increases have been made for the regular army, it has been the militia that has received the greatest consideration. That is natural. The militia is the political end of the army. The militia is located in the different states. As an organization it is effective in politics. The officers are generally good politicians. They have known how to be effective in securing the best part of the army increase measure in congress.

#### Cannot Be Helped.

And the regular army officers might as well understand that this condition cannot be helped. Although military histories are full of statements showing that trained regulars are much superior to raw militia and every commanding officer, from Washington down, has shown the inadequacy of untrained militia, no attention has been paid to them. The militia has always been the popular favorite in all times, has had the good fortune to be further and further advanced by legislation. The militia always wins when congress takes a vote.

#### Lewis Makes Deductions.

Senator Lewis of Illinois, himself once a national guard officer, comes to the defense of the militia when occasion offers. Recently he called attention to the fact that General Funston was a national guard officer, that Theodore Roosevelt was a volunteer officer who as the dashed leader of the rough riders advanced to the presidency, "and who today," added Lewis, "occupies a commanding place in the Republican party."

"What authority have you that Roosevelt belongs to the Republican party?" asked Ashurst of Arizona.

"The only information I have," responded Lewis, "is that which we lawyers have respecting titles. Whenever property yields to every command of a person we assume that he must be the owner."

#### Definition of Pork.

J. Hampton Moore has so often run up against the assertion that he has taken away a great deal of pork for Philadelphia in river and harbor bills that he felt called upon to define pork in a long debate upon the floor of the house of representatives.

"Pork," he said, "is not that which you get for your own river or for your particular hog cholera, but it is what the other fellow gets for his."

He was having fun with those who wanted appropriations for hog cholera in the agricultural bill, but who had been fighting with all their energy the river and harbor bill.

#### What Closure Would Do.

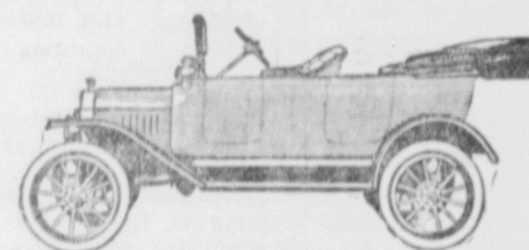

"If the senate should ever adopt

## TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

#### Spring Lounging Robes.

The new tea gowns, negligees and lounging robes are very pretty and made of fine fabrics. Fancy or corded cottons are much used for these garments. Cotton crapes with heavy cotton embroidery are largely used, especially in blue, lavender, rose or tan, with the embroidery in white. Instead of "embroidery," they may be trimmed with ribbon or lace. The voluminous effects in dresses are also used in negligees. Sheer and light weight fabrics are most favored.

#### Cottage Pudding.

One cupful of sugar, one cupful of sweet milk, two egg yolks, two tablespoonfuls of butter, two cupfuls of flour and two teaspoonfuls of baking powder. Cream sugar and egg yolks. Add milk and melted butter, flour and baking powder sifted together. Bake in square tin. Use white of eggs for meringue.

MEMBER

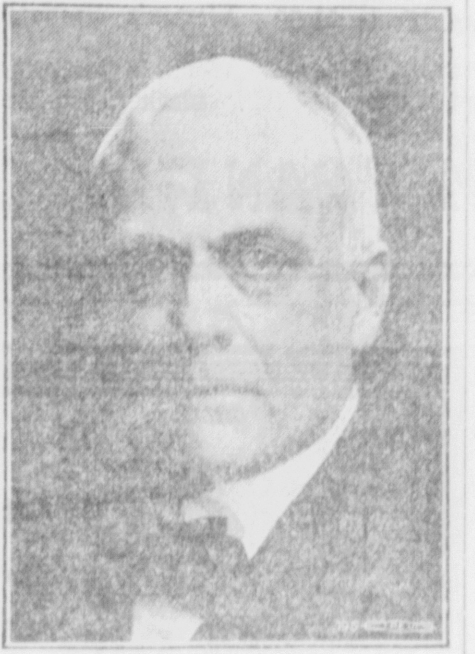

STATE GEOGRAPHICAL NAMES AND THEIR HISTORICAL SIGNIFICANCE  
 (Prepared by the Minnesota Historical Society for the United Press)  
 Douglas County  
 Stephen Arnold Douglas, leader of the Democratic party in the north, during the years preceding the Civil war, was always a friend of Minnesota, and his position as chairman of the senate committee on territories gave him numerous opportunities to demonstrate his friendship. His aid was especially valuable in securing the organization of Minnesota territory in 1849, the enactment of the enabling act in 1857, and the admission of the state in 1858. The county named in his honor was organized in March of the latter year, at the very time when he was working for the passage of the admission bill.

Moorhead voted Tuesday upon a bond issue of \$75,000 the funds to be used in the erection of a new high school building which when completed will cost \$125,000.  
 Some 25 teachers who have been factors in the public schools of Minnesota for 20 years past were today placed on the state pension list at a meeting of the trustees of the retirement funds. The pensions start in September.  
 Judge Ira B. Mills has announced his candidacy for reelection as railroad and warehouse commissioner. He is the oldest member and chairman of the commission and has served continuously with the exception of one year since 1893.  
 Col. A. D. Davidson, formerly of Little Falls and well known in Brainerd, died at Rochester of stomach trouble. Mr. Davidson was prominent in Canadian railway circles and was at one time land commissioner for the Canadian Pacific road.

It is not necessary to wait until "clean-up" week or until May 5th to start that job of getting the winter rubbish off your premises. A few days lift in advance will give you the advantage of getting your work nicely under way when the other fellows start in.  
 Little Falls Elks have followed the example set by Brainerd Elks and have bought a home site for their membership. This seems to be the inclination in all cities of this size, lodge organizations with an established future profit by acquiring property before the real estate advances make it prohibitive.  
 A well at Lake George, near St. Cloud, emits a whistling sound continuously and a news item says that the dogs for miles around are attracted to the spot owing to the continued whistle. Considerable virtue attaches to a freak of this kind if it will have the tendency to keep the worthless curs all in one vicinity.  
 Minnesota leads the northwest in the number of immigrant cars coming to this section and has 1,782 of them credited for March. An immigrant car of this kind means a family moving to Minnesota to make their home here and becoming residents of the best state in the northwest. Immigration Agent Sherman's report, just out, shows this.

With Fred Lynch as chairman of the democratic national committee and manager of the campaign for President William Minnesota democracy will certainly be in the limelight. Too bad Mr. Lynch could not have succeeded to this position at a time when there was some chance of landing his candidate in the presidential chair. This is a republican year.  
 "Taxpayer" writes the Dispatch that the proclamation by 6th St.

Beise which was published last Friday did not call upon the City Fathers to do their part of the work of cleanup week by cleaning up the streets. It is no fault of Mayor Beise that the streets of Brainerd are not in the condition that they should be, and we do not think that he could do more than is being done in this direction. The matter of street cleaning is left to the street committee and Mayor Beise informs the Dispatch that the matter was before the council at the last meeting. The ragged condition of the streets as presented at this time of the year is an eye-sore to a great part of the population and some means should be devised whereby they can be put in good condition along with the rest of the city during the campaign for a better and cleaner Brainerd. Let the city do its share in this municipal housecleaning.

HON. IRA P. MILLS  
 Member of the Railroad and Warehouse Commission, who is a Candidate for Re-election

COMMUNICATION  
 In the Friday's issue of the Brainerd Daily Dispatch on page four, headed "Mayor's Proclamation" for the week of May 1st as "Clean Up and Paint Up" week the mayor goes on and mentions places to be cleaned up, painted up and planted, and by whom, but he forgets or omits mentioning anything to the "City Fathers" in regards to the cleaning of the streets, containing loads of loose crushed rock, wood, boards, sheet tin and many other things, which should be removed to help beautify the city of Brainerd, and make them more passable.  
 Say a merchant's, lawyer's, doctor's or mayor's wife walks several blocks and in crossing the streets alights on a knife sharp crushed rock and cuts her new, high and expensive Easter boot, she turns an opinion of the streets of Brainerd. Say nothing of parties from out of the city and those residing from 15 to 25 blocks from main part of city, who come in contact with hundreds of such obstructions in going up town shopping or other business transactions. Hoping our honorable mayor will insert an amendment to this proclamation, including such men and such clean up.  
 Brainerd April 22.

A TAXPAYER.  
 THEY LOOK BAD  
 When you walk along the street and see the gutters strewn with refuse, it looks bad.  
 When you see empty bottles decorating the dark corners, that looks bad—and suspicious.  
 When you see papers blowing around over town it indicates that people are thoughtless and careless.  
 When you see broken glass around under foot it is pure negligence, and is both bad and dangerous.  
 When you see kitchen garbage dumped into the back yard or tossed over the fence, it looks bad and smells worse.  
 When you see vacant property littered with debris of every nature, it, too, looks bad—is offensive to the mind as well as to the eye.  
 When you see a back yard littered with the accumulations of months and of years, it looks worse than bad.  
 When you see a front yard down at the heels and going to seed, you wonder—but, then, we'll let you finish the sentence. Just how bad are we, anyway?

NAVAL AND AERIAL BATTLE  
 British Flyers Attacked German Battle Cruisers.  
 London, April 26.—Details of a thrilling naval and air battle off the eastern coast of England, in which one British aviator was lost, are related in an official statement issued.  
 "During the operation against the German battle cruiser squadron off the east coast," the statement says, "two Zeppelins were pursued by naval and land machines over sixty miles out to sea.  
 "Bombs and darts were dropped, but apparently without serious effect."

# ENGINEERS TO SURVEY INDUSTRY

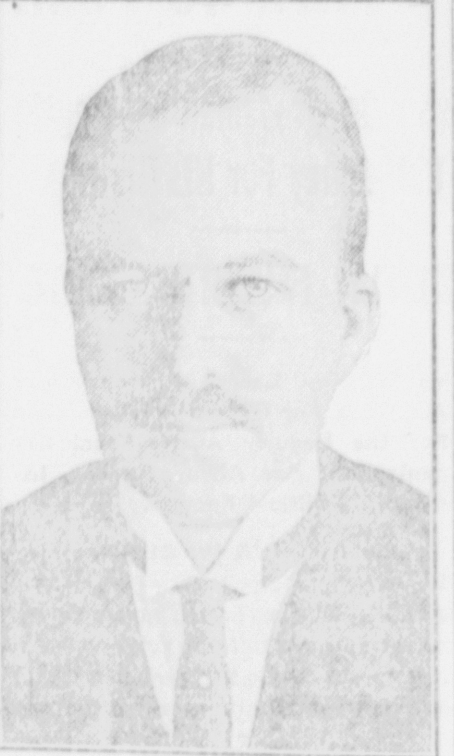

## U. S. Naval Consulting Board Names Directors For Work.

### FIVE MEN FROM MINNESOTA

William Lafayette Darling of St. Paul, Horace V. Winchell, John Joseph Flather and George Bell Frankforter of Minneapolis and William Newton Ryerson of Duluth Have Been Selected to Tabulate Industrial Preparedness.

Howard E. Coffin, chairman of the Committee on Industrial Preparedness of the Naval Consulting Board of the United States, today announced the names of the 250 state directors, formed into boards of five men each, who, under the committee's direction, are setting out to make a complete survey of American industry for the first time in the history of the United States government.

These state directors will be under the immediate guidance of W. S. Gifford, chief statistician of the American Telephone and Telegraph company, who is acting as supervising director of the work. Under them will work

W. S. GIFFORD,  
 Supervising Director Committee on Industrial Preparedness.

The more than 30,000 highly educated members of the American Society of Civil Engineers, the American Institute of Mining Engineers, the American Society of Mechanical Engineers, the American Institute of Electrical Engineers and the American Chemical society.  
 The state directors, who also become associate members of the naval consulting board, have just received appointment by the secretary of the navy. In making public their names Mr. Coffin said:  
 "The names and standing of these men speak for themselves. They have been selected by their own professional associates with the only standard that of efficiency and integrity. They work without pay; indeed, the services of many of them could not be bought. In my judgment they form a vast, flexible organization, the like of which has never been known in this or any other country of the world, and an organization, moreover, which from top to bottom is absolutely nonpolitical."  
 The directors from this state are as follows:  
 William Lafayette Darling of St. Paul, from the American Institute of Civil Engineers, is chief engineer of the Northern Pacific Railway company, was born 1850 in Massachusetts and educated at the Worcester Polytechnic institute; is a member of the Sons of the American Revolution, the American Railway and Engineering association, the St. Paul Society of Civil Engineers, honorary member of the Pacific Northwest Society of Civil

Engineers and president of the Northwest Association of Members of the American Society of Civil Engineers. From 1879 to 1901 Mr. Darling was continuously in railroad work, mostly

WILLIAM LAFAYETTE DARLING.  
 Engineers and president of the Northwest Association of Members of the American Society of Civil Engineers. From 1879 to 1901 Mr. Darling was continuously in railroad work, mostly

with the Northern Pacific, becoming chief engineer in 1901, until in 1903 he was made chief engineer of the Rock Island system. He has held his present position for the past eleven years and during this time has been second vice president and consulting engineer in charge of the building of the Spokane, Portland and Seattle railway and president of the St. Paul Union Depot company.  
 Horace V. Winchell of Minneapolis, from the American Society of Mining Engineers, is a consulting mining geologist; was born at Galesburg, Mich., Nov. 1, 1865, and educated at the University of Michigan. He is a fellow of the American Association For the Advancement of Science and member of the American Institute of Mining Engineers, the Mining and Metallurgical society and numerous other scientific bodies. Mr. Winchell was formerly

HORACE V. WINCHELL.  
 geologist for the Anaconda Copper Mining company and the Great Northern Railway company, as well as associate editor of the American Geologist and Economic Geology. He is intimately familiar with the geology of North America, from Central America to Alaska, and with that of some parts of South America and of the mining regions of Europe.

John Joseph Flather of Minneapolis, from the American Society of Mechanical Engineers, is professor of mechanical engineering in the University of Minnesota; was born June 9, 1862, at Philadelphia and was educated at Yale and Cornell, holding two degrees. He is a member of the American Institute of Electrical Engineers, is past vice president of the American Association For the Advancement of Science, belongs to the Minneapolis Civic and

JOHN JOSEPH FLATHER.  
 Commerce Associations and is secretary of the state voting machine commission. Professor Flather obtained his early education in Europe and was later employed as machinist, foreman, designer and superintendent in various manufacturing industries. He has been instructor of mechanical engineering at Lehigh university and professor of mechanical engineering at Purdue university and has been the head of that department in the University of Minnesota for eighteen years. He is the author of standard scientific works and as a consulting engineer is particularly interested in smoke prevention and measurement of power.

William Newton Ryerson of Duluth, from the American Institute of Electrical Engineers, is general manager and chief engineer of the Great Northern Power company and was born in 1874 in New York city and educated at Columbia. He has the degree of electrical engineer and is a member of the American Society of Mechanical Engineers, of the Canadian Society of Civil Engineers and of the National Electric Light association. Mr. Ryerson was formerly superintendent of the Ontario Power company at Niagara Falls, Canada.

George Bell Frankforter of Minneapolis, from the American Chemical society, is professor of chemistry and director of the laboratory and dean of the school of chemistry at the University of Minnesota; was born in Potter, Pa., in 1859 and educated at the Universities of Nebraska and of Berlin, holding three degrees. Mr. Frankforter is a member of the American Association For the Advancement of Science, the American Electrochemical society, the American Public Health association and many other scientific bodies. He has been engaged in various lines of chemical research.

# Notice of Hearing on Petition for Judicial Highway

State of Minnesota, County of Aitkin, ss.  
 District Court, Fifteenth Judicial District.  
 In the matter of the petition for a Judicial Highway between Aitkin and Crow Wing counties.  
 Notice is hereby given that a petition praying for the establishment of a judicial highway between Aitkin and Crow Wing Counties will be presented to Honorable W. S. McClenahan, one of the judges of the Fifteenth Judicial District, at his chambers in the First National Bank Building, in the City of Brainerd, Crow Wing County, Minnesota, on the 10th day of June, 1916, at 12 o'clock noon of said day. That at said time and place said court will be asked to appoint three commissioners to lay out said highway as provided by law. A true copy of said petition is as follows:  
 State of Minnesota, County of Aitkin.

District Court, Fifteenth Judicial District.  
 In the matter of the petition for a Judicial Highway between Aitkin and Crow Wing counties. Petition, To the Hon. Judges of the District Court in and for the Fifteenth Judicial District, State of Minnesota: We, the undersigned, legal voters and tax payers, residents of said Aitkin and Crow Wing Counties, hereby respectfully petition the Court for the establishment of a Judicial Highway on the county line between said Aitkin and Crow Wing Counties, which said proposed Judicial Highway is described as follows, to-wit:—

Commencing at the North West corner of Section 28, Township 50, Range 27, in said Aitkin County, which point of commencement is also the South West corner of Section 21, Township 50, Range 27, in said Aitkin County, and running thence South on the county line between said Aitkin and Crow Wing Counties, said county line being also the section line between sections 28 and 23, Township 50, Range 27, Aitkin county, and Sections 4 and 9, Township 49, Range 27, Aitkin County, and Sections 1, 12, 13 and 24, Township 138, Range 25, in Crow Wing County, a distance of 3 1/2 miles to the South East corner of Section 24, Township 138, Range 25, in Crow Wing County, which point is also the North East corner of Section 25, Township 138, Range 25, in said Crow Wing County and said proposed Judicial Highway there terminating.

We, therefore, pray that the Court will appoint three Commissioners to lay out said Highway under and pursuant to the provisions of Chapter 13 of the Revised Laws of Minnesota, 1913, and that said Commissioners be empowered to lay out said Highway in accordance with said provisions.

Respectfully submitted,  
 Aitkin County

Facts

GET the facts on the operating cost before you buy any automobile. Find out the truth before—not after. And don't be satisfied with hearsay or a salesman's claims. The price of gasoline is high; so is oil and there is sure to be an increase in the cost of all tires.

So, what you want is the car that will give you most miles per gallon of gasoline, per gallon of oil and per set of tires.

Here are the facts proved by the Maxwell stock touring car that recently set the World's Motor Non-Stop Record:

Maxwell World's Non-Stop Record Facts	
Miles without a motor stop.....	22,023
Average miles per day (44 days).....	500.6
Miles per gallon of gasoline.....	21.88
Miles per gallon of oil.....	400
Average miles per tire.....	9,871

Remember that this was a Non-Stop Endurance Record—in order to prove that the Maxwell car was exceedingly sturdy, reliable and trouble proof.

No attempt was made or could be made to save gasoline, oil or tires. So these figures merely indicate what would be possible under ordinary driving conditions.

Right now we have a Maxwell we can deliver to you, and if you don't want to pay cash, make a deposit and pay the balance as you use the car. *But don't put it off.* We know the Maxwell factory can't get half enough freight cars to carry their doubled output. Later on we may not be able to supply you. But we can NOW. Better phone us for a demonstration today.

## ELKS GOING IN DROVES TO DULUTH

Special Trains to Carry From 900 to 1,000 Will Leave St. Paul and Minneapolis

### GRAND LODGE OFFICERS THERE

Edmund Pennington of Soo, to Head Mill City, Louis Hill of Great Northern, St. Paul Crowd

Duluth, Minn., April 26.—Special trains carrying between 900 and 1,000 Elks will leave Minneapolis and St. Paul for the twelfth annual convention of the Minnesota State Elks association to be held here June 14 and 15, according to word brought back this week by A. B. Kapplin, chairman of publicity. While in the Twin Cities Mr. Kapplin secured the co-operation of the officers of the two lodges and indications are that record crowds will be sent out for the state convention this year. With such assurance from Minneapolis and St. Paul and from reports received throughout the state, local Elks are confident that 5,000 members of the fraternity and their families will come to Duluth for the annual gathering. The fact that five of the Grand Lodge officers are coming for the state meet is also expected to augment the attendance.

The Minneapolis lodge has already appointed a convention committee which is rounding up the members for a trip to Duluth. In all probability Edmund Pennington, president of the Soo road, will head the Mill City delegation, while Louis Hill, president of the Great Northern, will come with the St. Paul contingent.

Special trains are also expected from St. Cloud, Faribault, Mankato, Fergus Falls and Virginia.

Elks are urged to make their hotel reservations at once, as accommodations will be at a premium within a few weeks.

Rates at all the hotels in the city can be secured by writing to T. H. Sexton, secretary of the convention committee.

## ELKS ANNUAL BALL

To be Held at Citizens State Bank Hall This Evening, Hall Decorated in Elks Colors

The Elks annual ball will be held this Wednesday evening in the Citizens State bank hall. The committee, John H. Krekelberg, Wm. Turcotte, Ralph Quinn, Paul G. Clark, son, B. A. Lagerquist and Giles P. O'Brien have attended to all details and have had the hall beautifully decorated in Elks colors.

The Blue Ribbon orchestra of seven pieces will play. They will be seated in the center of the floor. Frappe will be served. The entire third floor will be used by the Elks. No pains have been spared to make this the most pretentious event of the season.

### SASH & DOOR FACTORY

W. H. Cleary is a Trustee in Bankruptcy and Not a Trustee of the Bondholders

In mentioning affairs of the Brainerd Sash & Door Co., the trustees of the bondholders are H. E. Kundert, R. B. Withington and Dr. Henri Ribbel. The trustee in bankruptcy is W. H. Cleary, who by mistake in Tuesday's Dispatch was mentioned as a trustee of the bondholders.

### Should Exchange Courtesies

Brainerd, Staples and Little Falls are each to have a chautauqua, probably all at different dates in the coming summer. Would it not be a good idea for these three cities to exchange courtesies on these occasions and visit each other's chautauqua when some specially good feature is being produced? Would not this be a worthy display of that community spirit about which we all prate so understandingly just now?

### MAXWELL PROVIDES THRILLER

Stock Touring Car, of Kind Handled by W. E. Lively, Leaps a Chasm 33 Feet Wide

The most spectacular automobile action picture yet obtained by a camera was recently filmed near Santa Barbara, Cal., where the studios of the American Film Company are located, when a Maxwell stock touring car, such as is handled by W. E. Lively, of Brainerd, leaped a chasm 33 feet wide and 21 feet deep. It landed safely on the other side with 14 feet to spare, the total distance of the flight being 47 feet.

Three passengers were carried on the perilous journey. Another remarkable tribute to the Maxwell sturdiness is contained in the fact that none of the passengers were injured and the car was unharmed.

The car was driven 1,000 feet on a temporary board incline to give it the momentum necessary for its long leap through the air. It was turned up to 50 miles an hour when it took the jump.

### CROW WING ITEMS

Mr. and Mrs. Dan Nichols, who were married in Brainerd, arrived in Crow Wing on Friday and will reside on the Gunderson farm, where they will soon be at home to their friends. The groom is a prominent young man of Crow Wing and the bride a teacher from Krem, N. D.

Several Crow Wingites attended the M. E. church in Barrows and were much pleased with the services.

Miss Lillian Guin came from Cedar Lake on Tuesday for a week's vacation.

Uncle Levi Gardner is vacating the Hutchins buildings and moving to the Milan place.

Several from Barrows spent Sunday afternoon at L. Bailey's.

The road crew is clearing trees and brush for the state road.

Miss Clarke spent Sunday at her home near Ft. Ripley.

### "Our Minister's Honeymoon"

The home talent play, which the "Up Streamers" class of the Methodist Sunday school repeats on Friday evening at the church, is a sequel to "The New Minister," which the class put on last year. The cast of characters will be in tomorrow evening's paper.

### Yeomen Dance

Harmony Homestead No. 1601, B. A. Y., will give a dance on Thursday night, April 27th, at Odd Fellows hall. Good music. Admission 25c. Ladies and members free. 274-277 By Order of Committee.

## RACE SUICIDE PLAN

Control the Multiplication of Flies by Destroying the Places Where They Seek to Breed

Ninety-five per cent of our housefly pests come from horse manure. A few are hatched in cow stables, especially in those where much bedding is used making the litter fairly coarse and loose. When there are no stables convenient, flies breed in litter from chicken houses, pig runs and outhouses. Under special stress they may breed in decaying vegetable matter.

Flies place their eggs in large masses in fresh manure, never in manure a season old. Each female lays about 120 eggs at a period, and usually four laying periods are lived through by a single fly. Several flies may combine and a mass of eggs half the size of the first may be found in a crevice of the manure pile. These eggs hatch in about one day. The maggots transform in five to seven days to dark-brown, barrel-shaped pupae, in which stage they remain for about five days, when the adult flies appear. When they are ready to transform to pupae, the maggots usually leave the warm, moist part of the manure pile and go into the dry outer edges, or even into the soil or under refuse. Traps in which large numbers of maggots are caught and killed about the outer edges of the manure pile have been made.

With a single insect producing 450 eggs, which yield full-grown flies in ten to fourteen days, it is possible for flies to become numerous in a short time. It is also possible for a few flies to make the use of traps of no avail as a means of fly reduction. No matter how many flies you trap, there are always enough left outside to replenish the supply if they get a chance to place their eggs in a favorable place, or those you have caught may have placed a supply of eggs in the manure pile already.

Here is the only remedy: Keep flies from breeding by seeing that the places where they wish to lay their eggs are not accessible or are distasteful to them. Force race suicide upon them. It's the only effective method of warfare against them.

### DO YOU KNOW—

There is no Federal institution in the continental United States for the reception and care of lepers? Plague is a disease of rodents? Malaria is spread by a special mosquito? House screening is a good disease preventative? Flies, flies and food spread typhoid fever? Pellagra may be prevented or cured by proper diet? The United States Public Health Service believes that the common towel spreads trachoma, a disease of the eyes? Children from sanitary homes advance more rapidly in school than those from dirty premises?

### ACT QUICKLY

Delay has been Dangerous in Brainerd

Do the right thing at the right time.

Act quickly in time of danger.

In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of Brainerd evidence of their worth.

Mrs. Charles Erickson, 1103 E. Oak St., Brainerd, says: "I suffered from weak kidneys for two or three years. Dull pains through the small of my back kept me in poor health and I also had headaches and dizzy spells. I got Doan's Kidney Pills at H. P. Dunn's Drug Store and they made me feel much better in every way." (Statement given August 31, 1908.)

OVE FIVE YEARS LATER, Mrs. Erickson said: "I use Doan's Kidney Pills occasionally for attacks of back-ache and always find relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Erickson has twice publicly recommended. Foster - Mifflin Co., Props., Buffalo, N. Y.—Adv.

### His Age is Against Him

"I am 52 years old and I have been troubled with kidneys and bladder for a good many years," writes Arthur Jones, Allen, Kans. "My age is against me to ever get cured, but Doan's Kidney Pills do me more good than anything I ever tried." Rheumatism, aching back, shooting pains, stiff joints, irregular action, all have been relieved.

### Salt and Water.

Salt put in hot water will make it hotter, just as it makes cold water colder.

### Cut This Out—It is Worth Money

Don't Miss This. Cut out this slip, enclose with 5c to Foley & Co., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for bronchial coughs, colds and croup; Foley Kidney Pills and Foley Cathartic Tablets. H. P. Dunn, druggist.

### A Secret Divulged.

"Papa," said the hopeful youth, "can you tell me what is natural philosophy?"

"Of course I can," said papa, proud and relieved to find that there was at last something he could tell his off-spring. "Natural philosophy is the science of cause and reason. Now, for instance, you see the steam coming out of the spout of the kettle, but you don't know why or for what reason it goes so, and—"

"Oh, but I do, papa," chirped the hope of the household. "The reason the steam comes out of the kettle is so that mamma may open your letters without you knowing it."—Exchange.

### Oldest British Colony.

Bermuda now ranks as the oldest of Britain's colonies; the English flag having been hoisted there in 1612 by a party of colonists from the Virginia company who stopped at the island on the way to the mainland, went on to Virginia, found Virginia in a state of starvation and returned. A previous explorer, Juan de Bermudez, gave the group its name.—Exchange.

## Again We Say Wash Fabrics

Have patience with us when we urge the early purchase of wash fabrics. Good patterns and qualities are scarcer than we have ever known them to be. We urge your early selection—you'll be more satisfied with your purchase if you do.

## Best Percales 15c

So long as our present supply lasts we can sell them at this price. They have advanced so much that future purchases must retail for more money—that is, for the best quality. We now have a large selection.

## Royal Worcester Corsets

### Are Your Corsets the Right Size

If you want your corsets to wear be sure they fit. And for correct fitting, don't make the mistake of selecting a size too small.

A smart, daintily contoured figure is never the result of crowding—but skillful designing such as you find in Royal Worcester corsets. The superb line shows the many important innovations of the new mode, and such is the variety of models that every wearer may find the style her fancy dictates.

Price \$1, \$1.50, \$2 and \$2.50.

"MICHAEL'S"

## CONTRASTS IN MEXICO.

A Land Where Extremes Meet Even in Its Weather Conditions.

Mexico is the land of contrasts, of great riches and extreme poverty, a few of its people massing millions, while myriads are starving; a place where the most modern machinery may be found in operation at the very side of the most primitive method of accomplishing the same end, where beautiful architecture is in contrast with adobe huts and where shining automobiles of the latest design whirl past sleepy ox teams hauling carts with solid wooden slabs for wheels identical with the design which was used at the time of the Spanish conquest.

Passing down a prominent street in almost any of the large Mexican cities there may be seen fashionably dressed gentlemen who look very much as though they were just as much at home on Piccadilly, the Champs Elysees or Fifth avenue. Following or preceding them, however, will be a sandaled peon clad in linen trousers and a blouse, with his "serape" thrown over his shoulder and his head protected by a wide brimmed sombrero and his entire worldly possessions upon his back.

In the next block one may meet an Indian woman, barefoot and with uncovered head, a child slung in the "re-bosa" over her shoulder. About her there is a suggestion of garlic, onions and pulque, while passing along the same street, comfortably ensconced in her victoria, dressed in a latest Parisian creation, rolls milady, also of the same nation.

A gorgeously appointed funeral car bearing the remains of one whose family can afford this expense may arrive at the burial place simultaneously with three or four peons, packing on their shoulders the body of a comrade in a plainly painted coffin, the use of which is rented and which will be returned after the body is given interment.

One story and possibly single room adobe houses plastered in colors adorn large structures of elaborate architecture, and the poor peon passing along to his humble abode may catch a glimpse through a spacious doorway of a beautiful patio adorned with flowers and fountains. Later when he sits down to his tortillas and frijoles his next door neighbor is probably being served with the richest viands and the rarest wines.

Back in the country districts the whirr of a sewing machine may be heard coming from a cane or a mud hut, while the head of the house may be seen scratching the ground with a crude plow of essentially the same design as those used in Mesopotamia in the time of Nebuchadnezzar or trampling his grain by driving animals over it. The climate, too, has its extremes, and in the highlands the nights are

## CHIROPRACTIC ADJUSTMENTS

Chiropractic is based upon the knowledge of the brain, spinal column, spinal cord and the nerves emanating therefrom. Pressure on a nerve at the opening where it leaves the spinal column, will cause disease in that organ or tissue at which the nerve ends. The Chiropractor adjusts with his own hands, and WITHOUT DRUGS OR KNIFE, the displaced vertebrae, which relieves the pressure and enables Nature to restore normal conditions—HEALTH.

Suits 4-5 Hayes  
Bldg., Brainerd  
Chiropractic—Spinal Adjuster  
Telephone N. W. 102

cold, while the sunny side of the street at noon is too warm for comfort. The lowlands have days of intense torrid heat, preceding others when a strong "norther" chills to the bone. Months of drought, during which little if any rain falls, are succeeded by intervals when rain may be expected for a part of every day. Of such contrasts is Mexico, once called the "treasure house of the world."—Geographic Society Bulletin.

### Tart Reception.

Hoffman, the German physicist, arrived in Glasgow late one Saturday night and on Sunday morning went to call on Lord Kelvin. The doorbell was answered by a woman servant, whom Hoffman asked if Sir William was at home.

The servant answered, "Sir, he most certainly is not."

Hoffman then asked, "Could you tell me where I could find him?"

"Sir," she answered, "you will find him at church, where you ought to be!"

### Information for Women

Housework is trying on health and strength. Women are as inclined to kidney and bladder trouble as men. Aching back, stiff, sore joints and muscles, blurred vision, puffiness under eyes, should be given prompt attention. Foley Kidney Pills restore healthy action to irritated kidneys and bladder. H. P. Dunn, druggist.

## The Strange Case of Mary Page

The Great McClure Mystery Story, Written by FREDERICK LEWIS, in Collaboration With JOHN T. MINTYRE, Author of the Ashton Kirk Detective Stories

Read the Story and See the Essanay Moving Pictures

Copyright, 1915, by McClure Publications

### SYNOPSIS.

Mary Page, actress, is accused of the murder of James Pollock and is defended by her lover, Philip Langdon. Pollock was intoxicated. At Mary's trial she admits she had the revolver. Her maid testifies that Mary threatened Langdon with it previously, and Mary's leading man implicates Langdon. How Mary disappeared from the scene of the crime is a mystery. Brandon tells of a strange hand print he saw on Mary's shoulder. Further evidence shows that horror of drink produces temporary insanity in Mary. The defense is "repressed psychosis." Witnesses described Mary's flight from her intoxicated father and her father's suicide. Nurse Walton describes the kidnapping of Mary by Pollock.

### STAGE ASPIRATIONS

NOT since the famous trial that sent the expression "brain storm" spinning down through the years, has the testimony of an alienist so greatly stirred an excited world as did the phrase "Repressed Psychosis," with which Dr. Foster summed up the temporary insanity of Mary Page.

It spread through the court and the throngs in the corridor; it sped over the telephone wires to the waiting newspapers of the city. It even reached the zenith of publicity and became the inspiration of the cartoonists, but all this was after that day when Dr. Foster, once more upon the witness-stand, told with technical brevity of how prenatal influence, increased by fear and suffering, reacted upon the delicate brain tissues under the strain of a great shock.

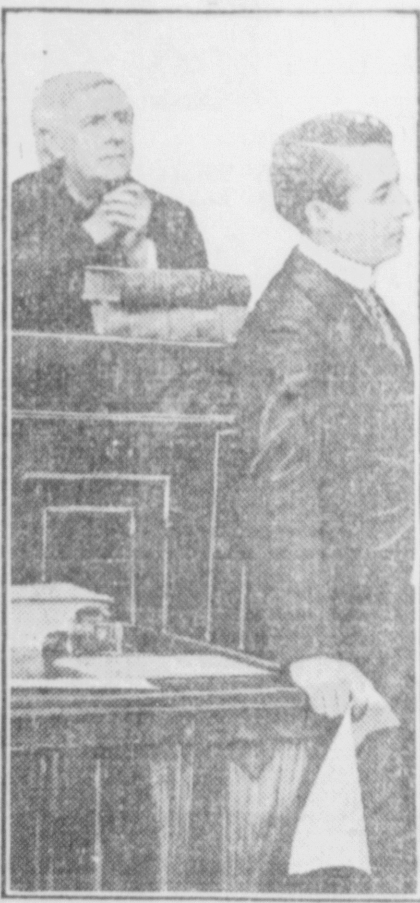

Much of what he said was entirely unintelligible to the excited audience. It was therefore with a little rustling sigh of relief that they heard Langdon abruptly change his line of questioning and say:

"How long after the night at Dr. Zeller's sanatorium did Miss Page remain in your hospital?"

"It was nearly three weeks before she was able to go, and even then it was with some trepidation that I consented to her leaving."

"Did you fear a return of—her—illness?"

"Yes. I knew that excitement or a nervous strain of any sort would have

"Did you fear a return of—her—illness?"

an injurious effect, and I warned both Mrs. Page and Mr. Langdon to protect her as much as possible."

"Dr. Foster, did you ever see James Pollock after the night he took Miss Page to Zeller's?"

"Yes. I saw him again on the day when Miss Page left my sanatorium."

"Will you tell us the circumstances of that second meeting, please?"

"Miss Page and her mother and Mr. Langdon were just about to leave, in order to take a train to New York when Mr. Pollock drove up to the sanatorium in his motor. I was very indignant at his daring to come to the hospital after what had occurred, and asking the Pages and Mr. Langdon to go into my office and wait, I went to

the door myself and peremptorily ordered Mr. Pollock to leave the grounds. He refused to go, saying that he had something of great importance to say to Miss Page. He would not, he said, ask to see her alone, but it was his right to see her if he wished, because their engagement had not been broken. I felt that in the circumstances it was best to let him see Miss Page and receive his dismissal. So I took him into the office."

"Did Miss Page show any distress at sight of him?"

"Yes. She gave a little cry almost of fear and clung to her mother, and would not answer his greeting."

"What did Mr. Pollock say?"

"He said, 'You have no reason to shrink from me like that, Mary. At worst what I have done has been because I loved you. You have promised to marry me, and so far that promise has not been taken back, and now I have come to know what you are going to do. It seems to me that we ought to be married at once—as—as—I have information that your father's death has left you—without—well, without the comforts that I will be glad to give you. I have waited for three weeks for some word from you, and now I have come to claim my fiancée!'"

"Did Miss Page reply?"

"Yes. She went up to him boldly and said without any signs of nervousness of the moment before, 'If I have not taken back my promise, James, it is because I have been too ill to think of it. But I do take it back now. I will never marry you so long as I live, and I never want you to speak to me again. I detest you, and since you can no longer harm my father, the reason for my promise to you is gone. That is all I have to say. Good-bye.' At that Pollock got very white and said hoarsely, 'Does that mean that you are going to marry Langdon?' 'It means,' she said, 'that after what has happened I shall never marry anyone. We are going to New York, where I hope to secure a position.'"

"Did Mr. Pollock show any surprise at that?"

"No, but he was obviously chagrined. And then I interfered and reminded Mrs. Page that they would miss their train if there was any further delay, and they left, Pollock driving away in his machine almost directly back of them."

## DECLARE BITTER FEELING EXISTS

Mexican Officials Oppose Conference at Border.

### FEAR ADVERSE INFLUENCES

Strong Intervention Sentiment at El Paso, Tex., Is Main Reason Urged for Wishing Generals Scott and Obregon to Meet Elsewhere.

El Paso, Tex., April 25.—Mexican officials in Juarez, it was learned, may make recommendations to General Carranza, asking that the conference between General Hugh L. Scott and General Alvaro Obregon be held at some other point than Juarez or El Paso.

This move, if it is made, will be based on the strong interventionist feeling which exists here and in the fear that influence adverse to the de facto government might be brought to bear on the conference.

There is no question that the interventionists are strong in El Paso. The feeling is intensified by the presence here of a large number of American refugees, who have been reduced to poverty through being forced to abandon the business they had built up in Mexico.

A certain section of the interventionists has caused some friction by circulating rumors of outrages committed on Americans by Mexicans and of the destruction by Mexican mobs of American property.

These stories, grossly exaggerated, have caused resentment among Mexican officials.

### PRIMARY IN NEW JERSEY

Unpledged Republican Delegates Appear to Be Elected.

Trenton, N. J., April 25.—Returns from the primary election in New Jersey for presidential delegates indicate that in contests in the Republican party between delegates pledged to Colonel Theodore Roosevelt and those preferring to go to the Chicago convention the pledged candidates were successful.

There was no opposition in the Democratic party to the election of delegates favorable to the renomination of President Wilson.

## WANT MISSING RICH MAN DECLARED DEAD

Minneapolis, April 25.—The courts have been asked to declare legally dead Daniel C. Sullivan, well known lumberman, who mysteriously dropped out of sight in downtown Minneapolis in broad daylight seven years ago.

This move, started in the Hennepin county probate court, was made to pave the way for probating Mr. Sullivan's will, one of the most unusual documents of the kind in the records of the court. These are some of its features:

Daniel Eldred Sullivan, a nephew and the ultimate sole heir, now ten years old, must wait forty years before he comes into his inheritance. The estate is to be held in trust for him until he is fifty years old.

Mrs. Alice O'Leary, Superior, Wis., a niece, who was to receive an inheritance of \$25 a week, forfeited this when she married.

The will provides annuities for seven priests for the next forty years for masses to be said during that time for the repose of the decedent's soul.

The estate is estimated at between \$50,000 and \$100,000. It is expected that there will be opposition to some of its provisions.

Daniel C. Sullivan dropped out of sight the afternoon of March 27, 1909.

### BANK BANDIT GETS \$5,000

Masked Robber Locks Utah Cashier in Vault and Flees.

Bingham Canyon, Utah, April 26.—A bandit, armed and masked, walked into the Copper State bank here and after binding and gagging J. Walker Keeler, the cashier, and locking him in a vault escaped with \$5,000.

Posses were formed immediately and started in pursuit of the bandit, but trace of him was lost within a short time.

### ABERDEEN MAYOR DEFEATED

Alva N. Aldrich Elected City's Head in Close Fight.

Aberdeen, S. D., April 26.—In a bitterly contested election Alva N. Aldrich, former mayor under the aldermanic plan, was elected mayor over Ed M. Hall, incumbent. Hall carried two of six wards.

### English Socialists for Peace.

Salford, Eng., April 26.—After secession of thirty delegates who protested against the anti-war policy the British Socialist party in conference here adopted resolutions favoring the speedy termination of the war.

### THREE HUNDRED BOMBS THROWN BY ZEPPELINS

(By United Press)

London April 26.—It is officially announced that Zeppelins threw three hundred bombs just east of the Metropolitan district of London last night. There were no casualties.

87,000 Bulgars Killed.

Athens, April 26.—The losses by the Bulgarian army during the war are estimated by Bulgarian reports received here to amount to 87,000 killed and 50,000 wounded or missing.

## Such tobacco enjoyment

as you never thought could be is yours to command quick as you buy some Prince Albert and fire-up a pipe or a home-made cigarette!

Prince Albert gives you every tobacco satisfaction your smoke-appetite ever hankered for. That's because it's made by a patented process that cuts out bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

## PRINCE ALBERT

the national joy smoke

has a flavor as different as it is delightful. You never tasted the like of it! And that isn't strange, either.

Buy Prince Albert everywhere tobacco is sold in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that corking fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such clever trim—always!

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

## WAR BLIGHTS MANY SWEDISH INDUSTRIES

Washington, April 26.—Many Swedish industries have been blighted by the war, and those that have survived did so only because they could meet changed conditions easily, according to information gathered by the bureau of foreign and domestic commerce. Importation difficulties and high ocean rates have brought disaster to some lines of business.

Manufacturers of steam engines and shipbuilders have increased their business largely, it is said, and plants manufacturing machinery for export have suffered little. Building activity has declined.

Production of wood pulp has decreased because many markets were closed by the war. The textile industry has suffered, but the market for woolen goods has had a good period.

### BIG PARADE AT DUBUQUE

Men, Women and Children Show Opposition to War.

Dubuque, Ia., April 26.—Fifteen thousand men, women and children marching under many flags and to the tune of "Yankee Doodle" and other patriotic airs paraded the downtown streets in an effort to show officials at Washington this section is averse to war with Germany or any other country.

The demonstration was under German-American auspices.

Marching four abreast the procession was nearly two miles long. Following the marchers were hundreds of automobiles all decorated with the Stars and Stripes.

### Out It Came.

Man on the Desk—This is an announcement of a wedding, isn't it?

"Sure."

"Well, why do you say 'Please omit flowers?' That goes with a funeral notice."

"Well, I showed it to a man who knows the chap who's going to marry the girl, and he said he was a dead one."

"No matter what he said. You are not the funny man on this paper. Cut that out."—Richmond Times-Dispatch

## Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.
